To Whom it May Concern,

Tilman Breitenstein has a fantastic understanding of IP strategy and has helped us develop a far more robust way of looking at IP in our Company. From identifying IP areas in our value chain, through to support in relevant filing, Tilman has already added tremendous value and we look forward to continuing this collaboration over the lifetime of the Company.

Owing to works performed with WindCapture to date, I would highly recommend Tilman and Scalable IP to any company wishing to maximise value with their IP strategy.

Sincerely,

Aaron Boylan.
