

## **Community Guidelines**

To keep this community valuable and welcoming for everyone, we ask that you follow these simple rules. Not adhering to them may result in suspension or removal from the group.

### **Stay on-topic**

We want to keep the conversation focused on good healthy schools, integrating safety and health into the educational frameworks of schools, improving educational outcomes. Please avoid posting content that isn't relevant to our mission. This isn't a platform for broad societal debates, political discussions, or unrelated topics. Let's keep it centered on creating healthier schools!

### **Be positive and helpful**

This is a space for constructive, respectful dialogue. We encourage a positive attitude—be helpful, share knowledge, and engage thoughtfully. Negative, sarcastic, or rude behavior won't be tolerated. Let's maintain a supportive and collaborative atmosphere!

### **No Self-Promotion, Selling, Links, or Direct Messages**

To protect the community from spam and ensure a valuable experience for everyone, we have strict rules around self-promotion. While we want you to share your work and ideas, blatant self-promotion, fishing for clients, or posting links to external content will not be allowed. This includes:

- Promoting services, affiliate links, or events
- Linking to your own content or profiles (e.g., websites, articles, newsletters, etc.)
- Encouraging private messages, DMs, or calls to action

If you post links, they will be removed automatically. Let's focus on creating value **within** the community.

If you're unsure whether your post violates these rules, feel free to reach out to us. We're happy to clarify!

---

### **Self-Promotion: What's OK and What's Not**

To keep this community valuable for everyone, we ask that you avoid self-promotion. Here's a quick guide on what's allowed and what's not:

#### **What's OK:**

- Linking to your profiles (e.g., LinkedIn) in your **personal** Skool profile

- Offering help or asking for feedback on specific GHSI-related topics (e.g., strategies for improving school health programs)

### ✘ What's Not OK:

- Posting links that lead people outside the community to your own content (e.g., blogs, events, workshops)
- Promoting paid or free events unrelated to the topic
- Sharing affiliate links or any content that could be perceived as self-serving

---

### How to Contribute Value to the Community

The best way to stand out and build trust in this community is by **giving value** without expecting anything in return. You can do this by:

- Answering questions and sharing your expertise
- Sharing useful insights and case studies
- Starting meaningful discussions
- Being honest about your experiences
- Offering advice and resources that can help others

This approach fosters a collaborative environment and benefits everyone!

We're excited to have you here, and we're confident that, together, we can create real change in schools across the world. Let's keep this community productive and valuable for all!
