

NEIGHBOURHOOD WASP PLAN ©

Share and Save

FEATURES

- A 20% discount off our monthly rates
- Regular scheduled maintenance of each trap
- Full service report after each visit.

THE NEIGHBOURHOOD WASP PLAN ©

IS A COST-EFFECTIVE SOLUTION FOR PROTECTING YOUR PROPERTY DURING THE ENTIRE EUROPEAN WASP SEASON.

Purchasing a Neighbourhood Wasp Plan ©

can save you a substantial amount of money and ensure that your home and property have protection during the entire European Wasp Season.

THE NEIGHBOURHOOD WASP PLAN ©

A 20% saving on the estimate of installation and monthly replenishment of appropriate bait and traps until the start of Hibernation.

Each Neighbourhood Wasp Plan © is customised to suit the unique requirements of your property

HERE IS HOW IT WORKS:

Get together with your neighbour(s) and request a Neighbourhood Wasp Plan © from us.

We will conduct a ****site survey**** of your property to assess the number of traps needed for you and your neighbor(s), as well as to identify the best locations for installation. Following this, we will establish a schedule to ensure the appropriate maintenance of bait and traps throughout the entire Wasp Season.

The site survey will enable us to provide you with a written quote that includes a discount.

Once you accept our quote, we will arrange a maintenance schedule for your properties and send out reminders. Billing will occur after each scheduled maintenance visit.

If you are already a customer, there is no need for a site survey since we have your details on file. However, we will need to conduct a site survey for your neighbor(s) who are participating in the Neighbourhood Wasp Plan © alongside you.
