FEATURES

Lifetime Limited Warranty

Digger Specialties, Inc. is proud to offer one of the strongest warranties in the industry. Our Vinyl Transferable Lifetime Limited Warranty and our Aluminum Lifetime Limited Warranty demonstrates our faith in our product and our commitment to you. Visit our website to view and register a DSI warranty.

Made in the USA

Digger Specialties, Inc. is proud to be an American company manufacturing quality American made products at our plants in Indiana, North Carolina, Georgia, Pennsylvania, and Missouri.

Committed to the Environment and our Community

DSI is proud to be an environmentally aware company that continues to update practices to reduce our carbon foot-print. DSI consistently recycles cardboard, wood, steel banding, zinc die cast, and heat shrink scrap. DSI also utilizes both aluminum and vinyl extrusions that contain recycled content. DSI is pleased to support our community by outsourcing a portion of our packaging functions to a local company that provides meaningful employment to individuals with disabilities.

1

Fast Assembly

Boxed Kits include everything needed for a fast section assembly.

2

Wide Choice of Designs

A variety of rail and baluster options gives homeowners the ability to create the perfect design for their outdoor living area.

3

No Unsightly Screws

Top and bottom rail mounts are designed to hide screws. Eliminating visible screws offers a streamlined look.

4

Lasting Strength and Durability

Top and bottom rails are aluminum reinforced for added strength and durability.

POWDER COATING PROCESS

Exclusive DSI Powder Coating Process

DSI is an industry leader in Powder Coated Aluminum Products. State-of-the-art technology is used to provide a high-quality and durable finish that is more resistant to the effects of impacts, chemicals, ultra-violet light, moisture, and extreme weather conditions.

The process begins with a system certified by the Powder Coating Institute (PCI) and continues with the American Architectural Manufacturers Association (AAMA) / Fenestration and Glazing Industry Alliance (FGIA) verifying our Powder Coating. These stringent processes provide homeowners with peace of mind in their investment.

Our Aluminum Lifetime Limited Warranty includes a Fade Warranty as well as a Salt and Abrasive Environments Warranty providing one of the best warranties in the industry.

1
The raw premium-grade aluminum is inspected to be free of blemishes and is not exposed to the outdoor elements.

2
The product enters a heated cleaning stage to remove extrusion debris and fabrication oils.

3-6
Clean: City water rinse
Cleaner: Recycling reverse osmosis water rinse
Cleanest: Pure reverse osmosis water rinse
Sealer: Dried-in-place aluminum sealer

7-8
A 200 MPH air blast removes water drops from the pre-treated aluminum.
A convection oven completes the dry-off process.

9
Powder is applied with 18 automated and 2 manual spray guns. Compressed process air is dried to -35°F Dew Point for superior adhesion.

10
The powder coating is then bonded and adhered to the aluminum substrate in a 400 degree cure stage.

CARDINAL
