Workshop

“Common misconceptions in statistics”

Young Scientists Forum
German Society for Biomaterials (DGBM)

Date 23-06-2022

Time:

11 – 12:30 a.m. CET

7 – 8:30 p.m. AEST

Access via Zoom

https://tu-dresden.zoom.us/j/66074540905?pwd=cm5iNjBNMkhiSXU4WlBrdjQ4TlF0dz09

Meeting ID:

660 7454 0905

Password:

YSF@DGBM1

Safe the Date:

14-17 September 2022

Annual Meeting of the German Society for Biomaterials (DGBM)

11:00 a.m. **Welcome and introduction of the YSF**

11:10 a.m. **Presentation by Adrian Barnett**

Adrian is a professor of statistics who has worked for over 27 years in health and medical research. He is passionate about using the best available evidence in national health and science policy. He is particularly interested in how we generate high quality scientific evidence that is of most value to the public and politicians, and how this evidence gets translated into policy and practice. He has researched how research is funded, and has worked with funding agencies in Australia and overseas to improve their processes. He has also researched how scientists write and report their research, with the aim of increasing the value of the enormous time and effort that goes into research.

11:40 a.m. **Open panel discussion**
