Gluten-Free Preparation Policy

At Abe's Place Pizza & Subs, we are pleased to offer several gluten-free menu options for guests who are gluten-sensitive or have celiac disease. Our team is committed to taking additional precautions when preparing gluten-free meals in order to reduce the risk of cross-contact.

Gluten-Free Preparation Procedures

When a guest informs our staff that they have a gluten allergy or sensitivity, the following steps will be taken:

- 1. Separate Preparation Area**

Food will be prepared in a designated area that has been cleaned prior to preparation.

2. **Fresh Ingredients**

Ingredients will be pulled from backup containers that have not yet been stocked on the main preparation line to reduce the risk of cross-contact.

3. **Hand Washing & Gloves**

Staff will wash their hands thoroughly and put on a new pair of gloves before preparing the order.

4. **Clean Cooking Equipment**

If a gluten-free pizza is ordered, the pan used to cook the pizza will be washed before use.

5. **Clean Cutting Tools**

Once the pizza is removed from the oven, staff will use a clean cut paddle and a clean pizza cutter.

Important Notice

While we take these precautions seriously, **our kitchen is not a gluten-free facility**. Flour and other gluten-containing ingredients are present in our kitchen and airborne flour or shared equipment may create the possibility of cross-contact.

For this reason, **we cannot guarantee that any item is completely gluten-free**.

Guests with severe gluten allergies or celiac disease are encouraged to notify our staff when ordering so we can take the appropriate precautions.

If you have severe gluten allergies or celiac disease, we encourage you to discuss your dietary needs with our staff to ensure your meal is prepared with the utmost care.

We appreciate your trust and will always do our best to accommodate your dietary needs.
