

TATTOO AFTERCARE

KEEP YOUR TATTOO
STRONG & CLEAR.

! IMPORTANT

Every skin is different. If you have any questions or concerns, contact us anytime at the studio.

Thank you!

GOOD CARE. STRONG INK.

THE FIRST DAYS ARE CRUCIAL

Proper aftercare supports the healing process, preserves the color brilliance and protects your tattoo long-term.

1. GENTLY CLEANSE

Wash your tattoo 2–3 times a day with lukewarm water and a mild, fragrance-free soap. Use clean hands only. No washcloths.

2. PAT DRY

Gently pat the skin dry with a clean paper towel. Do not rub.

3. APPLY THIN LAYER

Apply a thin layer of your recommended tattoo aftercare ointment. Less is more.

4. PROTECT

Wear loose, clean clothing and avoid friction on your fresh tattoo.

5. AVOID SUN

No sunbathing, solariums or direct UV exposure. Always use high protection sunscreen (SPF 50) after healing.

6. NO SOAKING

Avoid baths, swimming, saunas and whirlpools while healing.

WHAT TO EXPECT

- ✓ Mild tightness
- ✓ Redness
- ✓ Flaking / peeling

These are normal healing processes and nothing to worry about.

WHAT TO AVOID

- ✗ Scratching or picking
- ✗ Harsh skincare products
- ✗ Alcohol in the first 24h

Patience pays off –
your skin needs time.

HEALING TIME

The upper layer of skin heals in approx. 7–14 days.
The deeper skin layers need up to 4 weeks.
Take good care of your tattoo during this time.

WELL CARED FOR. A LIFETIME OF INK.
