

How It Works

MySharing4U.com

Building a community of peace, trust, love, and care.

[Step 1]. Receive an Invitation

Your journey begins with an email invitation from someone who knows and cares about you—a family member, relative, friend, or church member etc. This personal connection ensures our community remains a trusted space.

[Step 2]. Confirm & Join

Before accepting the invitation, we encourage you to verify the inviter (e.g., by phone or another trusted method). This simple step helps prevent spam and confirms the invitation is genuine. Once verified, click the invitation link or enter the provided code to join.

[Step 3]. Explore the Community

After joining, take a moment to explore what others have shared. Discover stories, ideas, and resources posted by members who share your interests—all in a welcoming environment.

[Step 4]. Start Sharing

If you are willing, now it's your turn. Share your own ideas, knowledge, and experiences. Choose an existing category or create your own (e.g., "Take the challenge of…", "In memory of…").
Before posting, please review our Community Rules to help us keep MySharing4U.com respectful and safe for everyone.

[Step 5]. Invite Others

Once you're part of the community, you can invite people you love and care about through your leaders. Extend the same opportunity to them—because sharing grows stronger when we bring in those who matter to us.

Welcome to MySharing4U.com—where sharing connects us all.

Note: If you're invited by different communities, you'll have multiple user roles and identity.
