

Quality and Food Safety Policy

Kagome Foods Portugal group believes that an adequate Quality management and Food Safety Policy is a fundamental strategy tool and, as such, a key success factor for their operations.

In this perspective we aim to:

- **Exceed and surpass our costumers' expectations in quality and service.**
- Maintain a quality management and food safety system, to ensure the provision of **safe, authentic and quality products** that fully comply with the expressed and implied requirements of our customers (including the requirements for certification KOSHER and HALAL), bearing in mind the technological and market evolution in a continuous improvement perspective;
- Comply with the legalized **Rules and Regulations**, particularly those involved in the activities or operations that affect food security by the application of good manufacturing practice and hygiene and the principles of HACCP;
- Prevent **Food Fraud** and promote **Food Defense** plan to avoid acts that can compromise the quality and food safety;
- Engage and motivate our employees, ensuring their **training and awareness** on issues of quality and food safety, while respecting ethical rules in force;
- Ensure the effectiveness of **internal and external communication**, with regard to quality and food safety;
- Promote and improve **Product Safety and Quality Culture** in order to generate benefits that can increase company reputation and business.
