

## **Gift packs for Lifeline Christian Mission**

Thank you for your interest in helping to supply school supplies and hygiene kits to the children Lifeline serves. Each child will receive one of each pack during the year. Because the gifts are identical all the children feel they are treated and loved equally.

The field staff decided on the contents of each pack so it is important that we adhere to their content list. If you would like to send "a little something extra" check out the lists of add-ons and add one or more of those to your donation. They will be greatly appreciated.

You may, but are not required to, assemble a complete kit; you may bring in individual items (box of crayons, deodorant, etc) which will then be combined with other donated items to make a complete pack. Items should be in their original retail packaging (exception: stick pens). Please put a strip of tape over the shampoo bottle caps to prevent opening.

The three 2021 collection deadline dates for bringing in complete packs and components are April 25 and August 29.

Any questions may be directed to Judy Rosenik. Thank you again for your interest!
