PROGRAMS

Housing Services

We provide housing and assistance to hundreds of individuals and families in more than 30 counties throughout Central Indiana.

Employment Services

Aspire's Employment Services program provides people with the services and support they need to increase their ability to work successfully.

Addiction Services

Aspire provides a wide range of treatment options and programs that are designed to address the multiple needs and goals of our clients.

Youth Services, System of Care (SOC)

System of Care is not a program provided by agencies—it's a philosophy of how care should be delivered and includes the whole community. System of Care is an approach to services that recognizes the importance of family, school, and community and seeks to promote the full potential of every child and youth by addressing their physical, emotional, intellectually, cultural, and social needs.

School-Based Services

School-Based Services are those counseling services provided at a school facility. We treat children of all ages whose behavior and functioning has been impaired by a variety of symptoms associated with ADHD, anxiety, adjustment to trauma and loss, behavioral problems, depression, substance use, and thought disorders, as well as other issues.

WELCOME!

From our staff at Aspire Indiana Health!
