

QUALITY EMPLOYMENT SOLUTIONS

WE ARE YOUR STEPPING STONE FOR SUCCESS

SHONNA WALKER

SUPPLEMENTAL STAFFING
THE EMPLOYMENT SOLUTIONS PROVIDER

www.supplemental.com

We hear a lot of good things from our great employees. Placing everyone in their ideal position can be hard, but we strive to get you the career you deserve and the job you will enjoy.

So, what do our employees say about us?

"I was hired recently through Supplemental Staffing in Toledo. I want to thank C Krantz and C Young for believing in people like me and giving me a chance to work a job through your company. **I would highly recommend Supplemental Staffing** to anyone that's willing to make a change in their life and meet great people in the work force. Not only are they changing my life for the better, but I also met a strong and understanding team. Also, a special thanks to Supplemental's client and staff. They are a great company/team who have helped in training me and others like me along the way. I just wanted to let everyone know that in life, **people need support like Supplemental Staffing** who have patience, understanding, strength and heart. I know that no matter what your circumstances are in life (Good or Bad) it's all about working for good people and good companies. It's just amazing how Supplemental Staffing works with their employees in **finding each person a job that they think would fit that person's personality**. They don't just place people anywhere. I believe that they have a good sense of people from the start and quickly know what jobs will be suitable for you. Again, I would recommend Supplemental Staffing to **anyone that's ready for a change in their life (career)** or even just a simple job change. Thank you Supplemental!"

STEPHANIE M LOPEZ

"I want to thank Lisa Dison and Supplemental Staffing for placing me so quickly after my move from Indianapolis back to the Toledo area. **I have been able to thrive and move up very quickly in my new career path** and I owe a lot of that to Supplemental for helping me find the perfect company that matches my skill set. I have officially become a full-time employee where they placed me, and I am grateful to continue on my successful career path. I feel blessed to have been employed by Supplemental Staffing during my transitional period. **I have/will recommend Supplemental Staffing to all my family and friends** who are looking for various types of job opportunities."

GRIFFIN BALL

"I've been working with Supplemental Staffing since 2016 at a long-term placement. The job has been amazing, but the people have been even better. **What surprises me the most is how easy they seemed to find me a job.** And not only was the job a great fit for my work ethic, it also fit my personality quite well! After a simple conversation with them over what I am interested in and what skills I had at the time, I was able to quickly fill out a form and they had a pretty good idea of what I would like. **Soon after, I interviewed for a fun placement and got a great job!** They handle my benefits/insurance and pay without ever having an issue. I really think that they help people establish themselves in an industry. **I almost see them as more of a career builder than a staffing company.**"

Helping you succeed is our top priority.

It seems that many of our employees feel we help in more ways than just finding them quick jobs. These testimonials seem to suggest that they are getting greater value through career building and skill training. Here at Supplemental Staffing, we feel that helping you advance in the career you enjoy benefits us more than us just placing you anywhere. In other words, helping you succeed is our top priority and we like to keep it that way.
