 - Insurance, mortgage interest
 - Property Tax

Capital Purchases and Disposals:

- Contracts for equipment and building(s) purchased and sold during the year.

Important Notes:

1. We encourage you to bring your income records to our office as soon as possible so we may begin work on your revenue statement. Files are worked on in the order they are received so it is in your best interest to bring them in as soon as you can. Please do not wait for all of your personal tax slips to arrive.
2. Your records should be added and balanced. Should you wish our firm to add and balance your records, there will be an additional fee charged for that service. Hourly rates would apply in the amount of approximately \$95/hr.
