### *A note from Dr. Clark...*

*God be praised! Greetings from your sister Churches in India! I just came back from a great journey in the country that never sleeps. We made several connections with people that God put in our path. We prayed over marriages, uplifted the outcast and sick, as well as connected with several schools and businesses of great importance in our continued work with India. While in the country, we heard the latest report that India has surpassed China in population now by 2.5 million. India will continue to grow as the largest populated country in the world for another 30 years...up to 500 million more than any other ever. Can you fathom just for a second the importance of a gospel mission in the country of India? I ask you to continue to pray for these people and for those who will be going in the years ahead to work with and share the gospel with such a beautiful people. The irony of India is you find overwhelming extremes of diversity from within the city to outside in the countryside. There are the untouchable outcasts and the rich and powerful. You go from paved highways to barely traversable dirt trails. You find churches that are large and organized to small remnants gathering in the back alleys. yet, in the midst of it all, God is there at work, and we get to be a part of that work. May God be praised!*

*Revelation 5:9-10*

*And they sang a new song, saying, "Worthy are you to take the scroll and to open its seals, for you were slain, and by your blood you ransomed people for God from every tribe and language and people and nation, and you have made them a kingdom and priests to our God, and they shall reign on the earth."*
